Luyendyk Elected Fellow of American Geophysical Union

Bruce P. Luyendyk, chair of the Department of Geological Sciences at the University of California, Santa Barbara, was recently elected a fellow of the American Geophysical Union (AGU). Fellowship is restricted to only 0.1 percent of the AGU, a group of 36,000 members, so 36 new fellows were selected worldwide this year.

The AGU cited Luyendyk "For pioneering work on vertical/axis crustal rotations within the Pacific North American plate boundary and their global implications."

Luyendyk joins four other members of his UCSB department in this honor as AGU fellows: Tanya Atwater, James Kennett, Ken Macdonald, and George Tilton.

Two emeriti members from the department also belong: their names are Michael Fuller and George Tilton.

Bruce Luyendyk can be reached at 805-893-2827. His e-mail address is luyendyk@geosci.geol.ucsb.edu. His internet address is: <http://www.geol.ucsb.edu/faculty/luyendyk/>. A jpeg photo of Luyendyk is available.

About UC Santa Barbara

The University of California, Santa Barbara is a leading research institution that also provides a comprehensive liberal arts learning experience. Our academic community

of faculty, students, and staff is characterized by a culture of interdisciplinary collaboration that is responsive to the needs of our multicultural and global society. All of this takes place within a living and learning environment like no other, as we draw inspiration from the beauty and resources of our extraordinary location at the edge of the Pacific Ocean.
